

1. Click on the download button

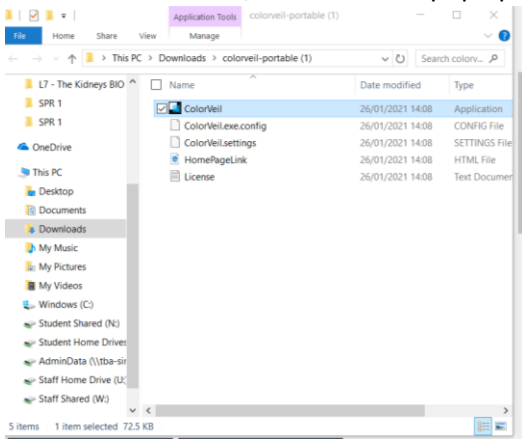

2. Choose the option that supports your computer/tablet. If you have a school laptop it will not let you download it.

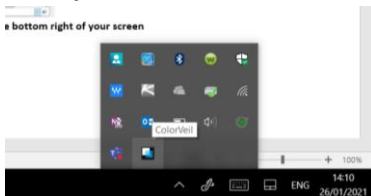

3. If you choose the portable option – 2nd on the list (open the folder and double click the top):

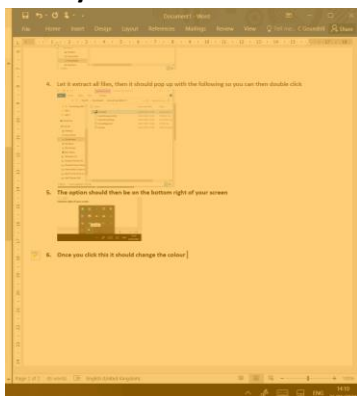

4. Let it extract all files, then it should pop up with the following so you can then double click

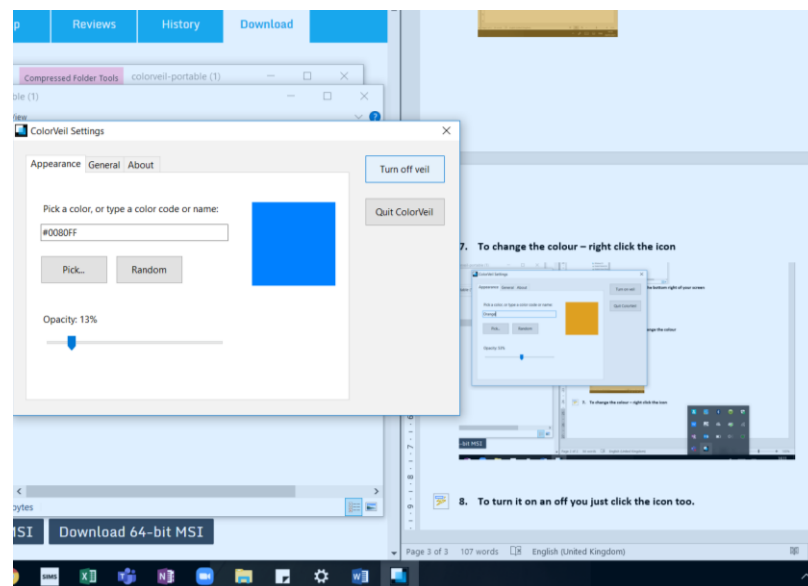

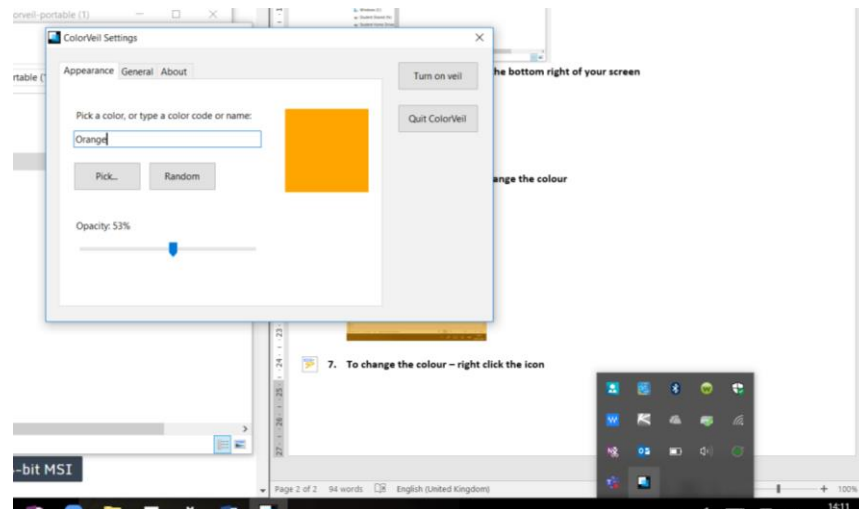

5. The option should then be on the bottom right of your screen

6. Once you click this it should change the colour

7. To change the colour – right click the icon

8. To turn it on an off you just left click the icon. If you want it back on then left click again.
