

12/03/2021

Dear Parents/Carers,

March/April Online Enrichment Clubs

At The Boulevard Academy, we have always reinforced the value of enrichment activities and the physical, social and mental benefits these bring for students. As students return to school following a second period of lockdown we believe students engaging in activities outside the classroom are more valuable than ever and want to encourage all students to engage in as much enrichment as they can. Due to our on-site procedures, we are not in a position to offer on-site enrichment activities as planned this half term. In its place, we will be running a full programme of online enrichment activities after school via our Google Classroom Enrichment Page. These sessions will be delivered by class teachers and will offer students the chance to interact and engage in topics of interest with other students across the Academy.

Enrichment clubs for both KS3 and KS4 students will run from Monday – Thursday. Teachers will be delivering a range of enrichment activities across a variety of subjects with more scheduled to start after half term. These clubs will commence from Monday 15th March and the list of available opportunities can be found below.

| | Year 7/8 | Year 9/10 |
|------------------|--|--------------------------------|
| Monday | P.E – At home fitness training | |
| Tuesday | Maths – Mathsmagician Society Digital Studies – Web Development | P.E – At home fitness training |
| Wednesday | Science on your screen English – Newspaper club | Science – Scientific Minds |
| Thursday | Music Club | Music Club |

We look forward to offering our full onsite enrichment package at the earliest possible opportunity.

Yours faithfully,

M. Williams
Assistant Vice Principal
