

15/03/2021

Dear Parent/ Carer,

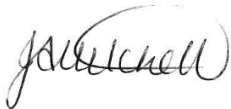

Firstly, we are writing to you to thank you for your overwhelming support; over the course of last week students, staff and parents have had to adapt to huge changes and I am thrilled to see students' smiling faces back within the Academy.

We are very excited to share with you that the outcome of the Academy expansion has been successful. The approval of the expansion will create huge benefits for our students. Specialist rooms for textiles and food technology will be included in the expansion; meaning students will be able to undertake these subjects as part of the curriculum from September 2022.

The expansion will also see an additional MUGA and an activity studio added to the school site; enhancing our PE provision and outdoor areas for our students. As well as, two specialised music suites with four additional practice rooms for music lessons and rehearsals. Our facilities for computer science will also expand with two additional fully resourced computer suites and further classrooms.

Due to the success of this expansion we are able to respond to increasing local needs for student places within our Academy from September 2021. Staff at The Boulevard Academy are looking forward to starting the next chapter of Team Boulevard's journey with the support of our valued community.

Yours faithfully,

Mrs J Mitchell
CEO/Principal
