### Year 10 Virtual Summer School

Dear Parents/Carers,

As we come to the end of an extremely challenging year for students, all staff at The Boulevard Academy would like to praise their attitude, determination and resilience during this time. In order to ensure that students are given every opportunity to catch up on lost learning time we will be launching an online summer school for each year group.

As an Academy, we recognise the impact that lockdowns, school closures and remote learning has had on students learning. As a result, we have altered our curriculum plans throughout the year to ensure we have a clear recovery focus. In addition, we believe it is vital that students take the opportunity to prepare themselves in the best way possible for starting Year 11 in September 2021.

In order to ensure our offer is as flexible as possible to fit around family plans we have created an on demand virtual summer school package for all students. The online school can be accessed by the link on the academy website or following the link below;

<https://www.theboulevardacademy.com/virtual-summer-school-2021/>

Here students can access lessons across all subjects to support additional learning over the summer holidays. The topics chosen have been identified as the most suitable topic for each year group by subject leaders.

All lessons link to The Oak Academy where lessons are delivered by a specialist teacher, with a pre-recorded video as well as quizzes, worksheets and activities. It is easy to use, there is no login or password and lessons can be accessed on nearly any device at any time.

We hope that this online Academy can support your child throughout the summer and we look forward to seeing them in September.

Yours faithfully,

Mr M Williams  
Assistant Vice Principal
